My estimate for round ten proved a little optimistic as we lost to Jersey by just four points. With five wins and five losses through the season we finished in third place. After some team changes we improved our average in the second half of the season, but our overall average in the end was slightly below that at the start. Third place in division two is a very respectable end to the season considering there are only eight counties above us nationally and around thirty-eight below us in the other divisions. Congratulations to Gary Nash for dropping only three points and being top of the team throughout the season. Thank you all for shooting well and returning all cards on time.

Alan
